

# EMS NEWSLETTER 86

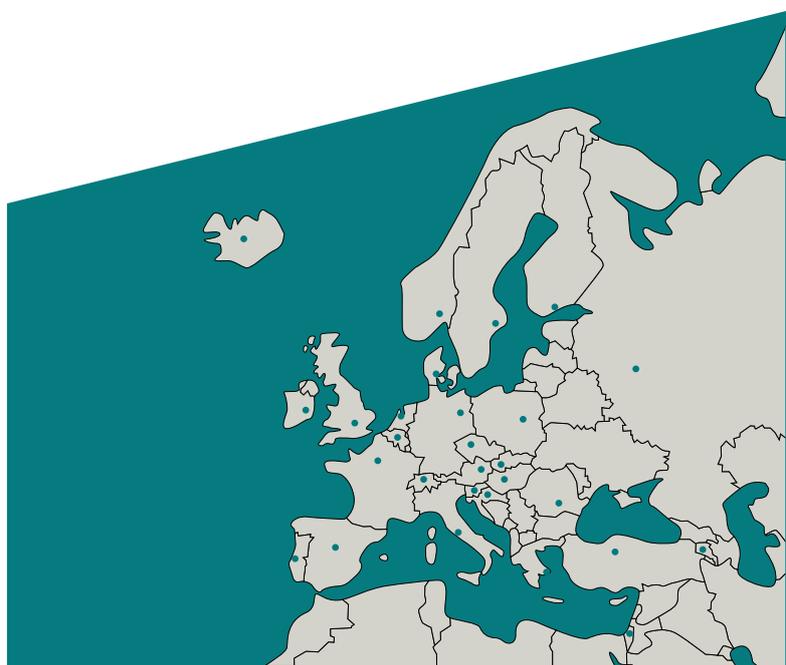

## JANUARY 2025

**Dr. Vladislav KRZYZANEK**  
EMS President

**Dr. Catherine VENIEN-BRYAN**  
EMS General Secretary

Dear EMS members,

We would like to wish you all a Happy New Year filled with opportunities and success!

The new EMS year has started with the call for nominations for the EMS Outstanding Paper Awards 2024, which will be presented at the 17th Multinational Congress on Microscopy (17MCM), Portorož, Slovenia 7-12 September 2025 (<https://17mcm.si>).

As usual, the EMS is committed to supporting the activities of our members, so please visit our webpage for the various meetings and workshops taking place over the year, some of which are sponsored by the EMS, some others are under EMS patronage:

- **Winter School 2025 - Practical course in advanced microscopy**  
20-24 January 2025, Zurich, Switzerland  
<https://www.zmb.uzh.ch/en/Teaching/Winterschool.html>
- **Quantitative Electron microscopy 2025 (QEM2025)**  
11-23 May 2025, Port Barcares, France  
<https://qem2025.sciencesconf.org>
- **Latest Trends in In-situ and Correlative Electron Microscopy - Conference & Workshop ICEM 2025**  
02-04 June 2025, Brno, Czech Republic  
<https://www.icem-brno.eu>
- **BIST Symposium on Microscopy, Nanoscopy and Imaging Science 2025**  
07 March 2025, Mediterranean Technology Park Castelldefels, Spain  
<https://bist.eu/events/event/2024-bist-symposium-on-microscopy-nanoscopy-and-imaging-sciences/>
- **MC2025** 31 August-4 Sept 2025, Karlsruhe, Germany  
<https://microscopy-conference.de>
- **Women in Electron Microscopy - Breaking Barriers and Building Networks**  
08-10 October 2025, Jülich, Germany  
<https://er-c.org/index.php/conferences/wem/>

And our extension meeting:

- **17<sup>th</sup> Multinational Congress on Microscopy** 7-12 September 2025, Portorož, Slovenia  
<https://17mcm.si>

You can find more information on these events using the direct link above and/or visiting our website at:

<https://www.euremicsoc.org/en/meeting-calendar/ems-sponsored-events/>

We will launch the call for the EMS annual subscription and membership updates very soon.

In addition, we invite all members of the EMS to provide and update information on their member's account (<https://www.euremicsoc.org/en/#>) in the "edit my preference" menu. This year, in particular, you will have the option of receiving a printed version of the yearbook or downloading it from the web page. The electronic version is the default option, so if you prefer the printed version, you must indicate your choice.

Finally, we still have many booklets celebrating the 25th anniversary of the EMS. This is an exceptional and magnificent publication which contains articles from leading scientists who have left their mark on the field of microscopy. They can be given away for free at any EMS events, just let us know if you would like them!

The following report was sent by Birgit Foltas, Editor-in-chief of the Microscopy and Analysis journal who wishes to introduce the Revamped Microscopy and Analysis for EMS Members in 2025:

*As an EMS member, you have been receiving a complimentary subscription to Wiley's magazine, Imaging & Microscopy. In 2025, Imaging & Microscopy and Microscopy and Analysis will merge into a single periodical, retaining the name Microscopy and Analysis to honor its 38-year legacy. This consolidation aims to enhance the publication by integrating the best features of Imaging & Microscopy. Microscopy and Analysis will serve as the partner publication of the European Microscopy Society.*

*The revamped Microscopy and Analysis will debut in March 2025, featuring a fresh design and enriched content. It will continue to be an essential resource, offering a mix of scientific and industry news, event updates, society information, profiles, interviews, application stories, and expert articles from international contributors. Esteemed external editors Chris Parmenter, Rebecca Pool, and Martin Friedrich will ensure the delivery of compelling content, keeping readers informed about advancements in microscopy.*

*We look forward to you enjoying the new Microscopy and Analysis, and we are excited about the opportunity to connect with you through this publication.*

See you in March.

Birgit Foltas, Editor-in-chief

Hoping to meet you next September in Slovenia at 17MCM.
